HELLO, I AM

a positive and collaborative developer who thrives on blending problem-solving with creativity. I excel in small, focused teams where I can meaningfully contribute to our objectives, foster innovation, and support my colleagues.

My background includes a Bachelor's Degree in Global Nutrition and Health from 2007, although I transitioned to a career in development after primarily working in customer support roles.

I am a cheerful individual with a positive outlook on life. I am 43 years old, I live in Viby and am the proud father of two children.
